# Oosafe® IVF Clinic Surface Cleaner

IVF ART

## CONCENTRATE FOR IVF CLINIC SURFACES & FLOORS

A concentrated cleaner for IVF Clinic surfaces and floors. Diluted at 1:19 with water, it provides an economical solution for routine cleaning of floors, walls, tiles, and other compatible surfaces. Aligned with Green Chemistry principles Oosafe® IVF Clinic Surface Cleaner is biodegradable, odourless formula effectively removes dust and dirt, while being gentle on suitable surfaces. Tested using MEA and SSMA assays, it is designed with specific requirements of the IVF Clinic environment in mind.

**Please read and carefully follow the Instructions for Use (IFU) before using this product.**

## APPLICATION

- Prepare the working solution before application
- Dilution: 1 dose 250 ml per 4750 ml of water or 500 ml per 9500 ml of water (1:19)
- Apply the prepared working solution using a suitable cloth, mop or other appropriate cleaning tool.
- Spread the solution evenly over the surface and remove the dirt.
- Allow the surface to dry or wipe it dry, according to the requirements of the surface.
- No rinsing is required.
- Do not apply the concentrate directly to the surface.

## KEY FEATURES

- Concentrated
- MEA & SSMA tested
- Alcohol free
- Odourless
- pH-balanced formula
- No EDTA
- Biodegradable ingredients
- Natural chelating agent
- Suitable for floors, walls, tiles and other compatible surfaces (see IFU for details on surface compatibility)
- Removes dust and dirt
